Integrations

- ✓ Intercart
- ✓ Vista
- ✓ Doordash
- ✓ Uber
- ✓ Twilio
- ✓ Stripe
- ✓ DocuSign
- ✓ Office365
- ✓ Azure DevOps
- ✓ Jira

TECHNICAL SKILLS

- HTML/CSS
- PHP
- MYSQL/PostgreSQL/MongoDB
- REST API
- Linux
- Golang
- AWS
- JavaScript
- Yii2/Laravel - Livewire
- Angular/Vue/React
- Nginx/Apache
- Python/Django/FastAPI
- React native
- Docker

Other skills

- Strong knowledge of Data Structures and Algorithms.
- Goal Oriented, Research, Problem-solving, Critical Thinking, Teaching.

Projects

2025

ELEAP PLATFORM (LMS, QMS, PMS)

Telania
Developed and maintained a cloud-based enterprise platform combining Learning, Quality, and Performance Management systems. Implemented training management, compliance tracking, document control, audit workflows, and performance review processes. Integrated external tools (Jira, Microsoft Office, Azure DevOps) and enabled seamless SSO across systems. Contributed to microservices including a document formatting service (FastAPI, Docling) and an AI service (FastAPI, LangChain, Neo4j).

Tech Stack: PHP (custom NIP framework), Laravel, Vue.js, Inertia.js, React, jQuery, Python (FastAPI), LangChain, Neo4j

2024

AESTHETIDOCs

Esterox
An automated clinic management system streamlining daily operations, including customizable appointment calendars, report generation, and an integrated external booking platform tailored for each clinic's specific needs.

Technologies used: php, laravel, livewire, react

UTILITY OUTAGE NOTIFICATION TELEGRAM BOT

StellarX
Our Utility Outage Notification Telegram Bot is designed to provide timely updates on water, gas, and electricity outages in your area. This user-friendly bot allows residents to easily receive notifications about scheduled or unexpected utility disruptions by simply sharing their address.

Technologies used: python

LOCO

StellarX

The project is a standard restaurant reservation system that includes an interactive map for booking tables, as well as about and contact sections for more information and customer inquiries.

Technologies used: php, laravel

CYBERSECURITY GPT APPLICATION

StellarX

A web-based application hosting multiple specialized GPT models/agents, each tailored to specific cybersecurity roles, collaborating with each other to provide comprehensive cybersecurity solutions.

Technologies used: python, django

2023-2024

ARMENIAN PARTNERS

Davel

Armenian partners is a safe business environment for networking, job hunting, crowdfunding and investing. Our goal is to make all investment and fundraising opportunities equally accessible to anyone who aims to have its dime in making Armenia a greater country and fulfill their immense potential
